Online Learning @ VPE

Mr. Ott's Class–Spring 2019-20

Global History Daily/Weekly Routine

Online-Learning is a difficult skill to acquire. It's okay to struggle and figure out a plan and what works for you. It is mostly independent learning, which is the opposite of what education in high school is all about. So, the transition can be difficult. In order to be successful you have to develop a routine and stick to it, otherwise it's very easy to let things get out-of-hand and become unmanageable.
