Mr. Ott – Global History & Geography

Great Thinkers and Accomplishments of Islam Cube Directions

1. Using a large, blank piece of paper, cut out the following design.
2. Each box will measure 4 inches by 4 inches.
3. For ease you may want to number your squares as they appear below.
4. You will be writing your information and creating your visuals on the side of the box without numbers.
5. Fold the edge of each box so you can clearly see where borders of each box are.
6. Box nine will be glued over box one
7. Box seven will be glued over box nine, so box three will create one side of cube.
